Individual results may vary, and performance may vary from location to location and from year to year. This result may not be an indicator of results you may obtain as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible.

¹Gross income figure includes yield, selling price and cost of drying only and does not consider other inputs. This is an estimate used only to illustrate potential gross income; it is not a guarantee or statement of fact.

²Please note that commodity prices may vary from day to day and across regions; this is intended for illustration only.

³Drying cost is an estimate, factored in when per point moisture is over 15.5%.
